**Activity:**

Second Semester sales are up 4% thanks to active reorders and new product launches in both Luxury Packaging and Surface treatment (MSV).

In 2018 Augros growth reached 20% which is significantly greater than the prestige cosmetic and wine and spirit packaging market.

This growth is the consequence of a repositioning of AUGROS COSMETIC PACKAGING in the Top 10 prestige packaging companies able to develop plastic pack with in house upscale surface treatment capabilities, for both the Prestige Cosmetics and Wine and Spirit markets.

**Perspectives:**

Today, Augros book of order is up 7% compared to the one of January 14th 2018.

The new metalizing line for MSV plant and automation investments ordered last year which will be implemented in the first semester, will allow us to ride along our customer's trust and without major turnaround of our market, 2019 looks like another promising year for Augros.

AUGROS 2018 Financials will be published on February 18th 2019.

AUGROS General meeting will take place on May 17<sup>th</sup> 2019.
